REPORT ON SHIPPING.

To the Honourable

JAMES SUTHERLAND,

Minister of Marine and Fisheries.

SIR,—I have the honour to submit herewith the Eleventh List of Shipping issued by this Department, being a list of the vessels whose names remained on the registry books of the Dominion of Canada on the 31st day of December, 1901, giving the name of each ship, her official number, the port at which she was then registered, her rig, where she was built, the year in which she was built, her register dimensions and her register tonnage. In the case of steamers, the list shows the gross tonnage as well as the net tonnage of each steamship. The list also shows the name and address of the owner of each vessel, but in cases where there are more than one owner, the name and address of the managing owner, if known, is given.

The total number of vessels remaining on the register books of the Dominion on the 31st December, 1901, including old and new vessels, sailing vessels, steamers and barges, was 6,792, measuring 664,483 tons register tonnage, being an increase of 57 vessels and an increase of 4,949 tons register, as compared with 1900. The number of steamers on the registry books on the same date was 2,177 with a gross tonnage of 298,421 tons. Assuming the average value to be \$30 per ton, the value of the registered tonnage of Canada, on the 31st December last, would be \$19,934,490.

The number of new vessels built and registered in the Dominion of Canada during the last year was 335, measuring 34,481 tons register tonnage. Estimating the value of the new tonnage at \$45 per ton, it gives a total value of \$1,551,645 for new vessels.

A statement follows, showing the number of vessels and number of tons on the register books at the different ports of registry in the Dominion, on the 31st December last, along with a comparative statement of the tonnage from 1874 to 1901. A statement is also published of the number of vessels built and registered in the Dominion during the last year, and a comparative statement of the number of new vessels built and registered from 1874 to 1901, both inclusive. A comparative statement is also given of the tonnage of the Maritime States of the world.

RAPPORT SUR LA MARINE MARCHANDE.

A l'Honorable JAMES SUTHERLAND,
Ministre de la Marine et des Pêcheries.

MONSIEUR,—J'ai l'honneur de présenter la onzième liste de la marine publiée par ce département, étant une liste de vaisseaux dont les noms sont inscrits sur les registres de la Puissance du Canada au 31 décembre 1901, donnant le nom de chaque vaisseau, son numéro officiel, le port où il fut enregistré, son gréement, l'année qu'il fut bâti, ses dimensions enregistrées et son tonnage enregistré. La liste, dans le cas des vaisseaux mûs par la vapeur, montre le tonnage brut ainsi que le tonnage enregistré de chaque vaisseau. La liste donne aussi le nom et l'adresse du propriétaire de chaque navire, mais dans les cas où il y a plus d'un propriétaire, le nom et l'adresse du propriétaire gérant sont donnés s'ils sont connus.

Le nombre total des navires inscrits sur les registres du Canada, au 31 décembre 1901, comprenant les vieux et les neufs, les voiliers, les navires à vapeur et les barges, était de 6,792 d'un tonnage de 664,483 tonneaux enregistrés, ce qui forme une augmentation de 57 vaisseaux et une augmentation de 4,949 tonneaux enregistrés pour l'année 1901 comparée à 1900.

Le nombre de steamers portés sur les registres à la même date était de 2,177, d'un tonnage brut de 298,421 tonneaux. En calculant sur le pied d'une moyenne de \$30 par tonneau, la valeur du tonnage enregistré au Canada le 31 décembre dernier serait de \$19,934,490.

Le nombre des navires construits et enregistrés au Canada, l'année dernière, a été de 335 de 34,481 tonneaux enregistrés. En estimant la valeur du nouveau tonnage à \$45 le tonneau, on a une valeur totale de \$1,551,645 pour les navires neufs.

On trouvera ci-joint un état indiquant le nombre de vaisseaux, le tonnage enregistré [aux différents ports d'enregistrement du Canada, au 31 décembre dernier, avec un tableau comparatif du tonnage de 1874 à 1901. Un état est aussi publié donnant le nombre de vaisseaux construits et enregistrés au Canada l'année dernière et un tableau comparatif des vaisseaux construits et enregistrés de 1874 à 1901 inclusivement. Un tableau comparatif est aussi donné du tonnage des puissances maritimes de l'univers.
